Journal of Franklin Institute of the State of Pennsylvania and Mechanics Register, Vol. 25: Devoted to Mechanical and Physical Science, Civil Engineering, the Arts and Manufactures, and the Recording of American and Other

By Thomas P Jones

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Journal of Franklin Institute of the State of Pennsylvania and Mechanics Register, Vol. 25: Devoted to Mechanical and Physical Science, Civil Engineering, the Arts and Manufactures, and the Recording of American and Other Patented Inventions Dr. Hare, no doubt unintentionally, entirely misstates my views, when he says that I think it expedient to have it enter near or through the floor. This represents me as writing nonsense - for do I not speak distinctly against letting it pass through a hole or grate in the floor? and surely this would be near or through the floor. The principle that I want to establish is, that the flues or pipes by which the heated air passes off from the heat-chamber, into the apartment to be warmed, in whatever direction they be carried under and through the floor, should not terminate there, but pass above the floor, and there have a horizontal direction, (or parallel with the floor) to some extent, before they terminate. What specific length this horizontal branch should have, it would require many experiments...

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.
